VERY CONFLICTING

Are the Reports from the Mexican Revolution.

GARCIA CAPTURED AND KILLED.

One Account Says the Revolution is Over, While Another Reports the Movement as Growing Daily and New Recruits Are Joining Garcia's Forces Hourly.

CHICAGO, Sept. 22.—A special dispatch from San Antonio, Tex., says Juan Macorite, who has arrived from Nier, Mex., says the Mexican revolutionists were overtaken north of that place Friday by government troops, and that a battle ensued, in which several on both sides were killed and wounded.

Catarino Garcia, the leader of the revolution, was seriously shot and then hanged to a tree. General Ruiz Sandoval, Garcia's chief lieutenant, escaped to the mountains with a few followers. He is being pursued and will be captured.

A DIFFERENT ACCOUNT.

The Revolutionists Receiving Reinforcements Daily.

NEW ORLEANS, Sept. 22.—The Picayune's Brownsville (Tex.) special says: It is rumored from up-river points that Garcia's force of revolutionists in Mexico is receiving daily reinforcements from this side of the river. Small parties from Texas frontier counties are crossing at different points between here and Laredo. There is a large element of discontented Mexicans in these counties. Hard times and lack of employment and the inherent love of anything savoring of revolution make them ready recruits.

Garcia is still reported as making toward the Rio Grande closely pursued by Mexican troops. The United States soldiers stationed on the Texas frontier are all in the field watching the river crossings. Fort Brown is now occupied by the post surgeon and a teamster. All others available are out, and they number hardly more than a corporal's guard.

AS REPORTED TO WASHINGTON.

The War Department Called on for Assistance.

WASHINGTON, Sept. 22.—A telegram was received at the state department yesterday, announcing the whereabouts of Caterina Garcia, the leader of the revolutionists who recently invaded Mexico, and requesting this government to be on the lookout for him if he attempts to cross the river.

The dispatch stated that he was expected to cross the river between Salicano and Reynosa, or at La Gruneta. The war department telegraphed the information to the commander of the department of Texas, so that the officers at Forts Brown and Reno could be on the lookout for the revolutionists.

Newspapers from the vicinity of the raided territory state that it is rumored that Garcia was captured and killed.

CIGAR MAKERS.

Meeting of the Biennial Convention of the International Union.

INDIANAPOLIS, Sept. 22.—The fifth biennial convention of the international cigar makers union opened here yesterday evening with several hundred delegates in attendance. Canada and nearly all the states of the Union being represented. The principal business of the session is the adoption of a new constitution, which has been framed by a committee appointed for that purpose at the last meeting.

President Strasser reviewed the history of the union briefly in his opening address, saying that there are now 292 unions in this country and Canada and there is a total membership of 28,000, and its mutual benefit system is a complete one. Besides the sick benefit the union pays a mortuary benefit of from \$150 to \$550 to the widows or orphans of the deceased. Loans are also made to assist members to leave in search of employment, and in case of a strike, lockout or victimization there is a fund ample to meet ordinary demands. The cigar makers have in their treasury \$460,000 and have paid out in the past ten years, for all purposes, over a million dollars.

After appointing the several committees the union adjourned.

Mixed on His Wedding Eve.

CORTLAND, N. Y., Sept. 22.—Edward Damon, only son of the Rev. Albert L. Damon, of the Methodist church at Homer, is missing from his usual haunts and it is said he has left town. He was to have been married on Wednesday evening to Ella Martin, a waitress at the Hotel Burns. The girl was all ready for the wedding which was to occur at some minister's, she forgets the name. She is still a waitress and waiting for Damon. She intimates that she will begin breach of promise proceedings. It is said Damon's father prevented him from marrying the girl, but his friends claim that no marriage was ever intended, and that he was simply fooling the girl.

Young Lady Assassinated.

ST. LOUIS, Sept. 22.—While returning home to Clifton Heights from this city last night, in company with Rame Richart, Miss May Lincot was fatally shot by an unknown person. John Bruett, a former suitor of Miss Lincot, was arrested, it being claimed that he was insanely jealous of Rickart, having threatened to kill both him and the young lady if he ever saw them together.

Valuable Bonds Stolen.

NEW YORK, Sept. 22.—It was announced yesterday that \$33,000 in Atchison railroad bonds had been stolen last Saturday from the office of Asiel & Co., brokers, 58 Exchange Place. The missing bonds are \$5,000 Atchison incomes representing a par value of \$30,000.

NEW ELDORADO.

Thousands of People Ready to Enter Oklahoma.

GUTHRIE, O. T., Sept. 22.—"A horse, horse, my pile for a horse," is the cry that goes up from hundreds of disappointed men and women who have arrived here on the trains and cannot get transportation to the new lands. Many having given up and will leave, but scores have started out to walk the twenty-five miles in the hot September sun. One old colored man, accompanied by his wife and fourteen children, are now trudging valiantly over the long, dreary trip, hoping to get homes in the new "Eldorado."

Couriers from the different county seats say the surveys cannot be finished before Friday night, and thousands will be camped around each by that time. The supply of water is already short and before the week is out water will be worth twenty-five cents a glass there. The locations of the town sites are miserable, and there is already a movement on foot to move the towns by force to better locations.

At Langston the negroes are getting restless and trouble will surely occur between the races there. At Topea one man was killed last night.

Five thousand people are gathered on the streets here preparing to leave for the line, and fully 30,000 are already there.

SENSATIONAL SUIT BEGUN.

Insurance Companies Refuse to Pay an Indianapolis Fire Loss.

INDIANAPOLIS, Sept. 22.—A genuine sensation was created in business circles yesterday when half a dozen insurance companies, acting in concert, filed answers to the Byram & Sullivan suit for insurance money. The firm lost its entire stock of dry goods valued at \$60,000 by fire in March last. The firm carried \$58,000 insurance, and the fire was followed by a refusal to pay the insurance.

Suits were filed and the companies yesterday filled their answers. These pointedly charged the firm with having set fire to their store and say that they are not entitled to compensation for the loss of their stock. The fire occurred on Sunday night and it is claimed that a member of the firm left the store a few minutes before it occurred. Sensational developments are expected at the trial of the case.

Preparing a Place for the Negroes.

BOSTON, Sept. 22.—Bishop Turner, of the African Methodist Episcopal church, who is going to Africa in the interest of the movement for emigration of negroes from America to that country, said in a lecture last night that he recently had a conversation with President Harrison in regard to this movement, and the latter expressed surprise at the little interest the colored people took in the matter. During the conversation with the president Bishop Turner suggested that congress make an appropriation for the purchase of a tract of land in Africa and appoint a commission for the purchase of a tract of land in Africa.

Trouble Feared at Briceville.

NASHVILLE, Sept. 22.—There is every indication of renewed trouble at Briceville within a few days. The armistice expires on the 24th inst., and the miners are reported to be very restless because of the inaction of the legislature. E. B. Wade, superintendent of prisons, said yesterday that he anticipated a renewal of the troubles upon the expiration of the armistice. Governor Buchanan is firm in his determination to put down any further insurrection and trouble, if it comes, can be of but brief duration.

Saved by a Newspaper Man.

SAN FRANCISCO, Sept. 22.—On the testimony of two footpads, Sidney Bell, a son of wealthy Columbus (O.) parents, was convicted of the murder of one Samuel Jacobson. Bell was to have received his death sentence Saturday, but was saved and released on one of the footpads confessing perjury. A gambler named Kennedy, a lover of Jacobson's sister, is the real murderer. The plot was revealed by the detective work of Will M. Clements, a former newspaper man of Cleveland.

Phoebe Cousins Paid Off.

WASHINGTON, Sept. 22.—A voucher for \$32.42 in favor of Phoebe Cousins for salary from April 1 to 15 as secretary of the board of lady managers of the world's fair exposition was received at the treasury department yesterday. It was approved by Bertha M. Palmer as president of the lady managers. Miss Cousins was deposed from her position as secretary on April 15. This voucher will be paid and will close Miss Cousins' connection with the world's fair.

Prominent Citizen Dead.

MANSFIELD, O., Sept. 22.—Washington Cowen, aged eighty years, and a prominent citizen of this city, died yesterday after an illness of ten days. Mr. Cowen was a director of the Baltimore and Ohio railroad, and the father of John K. Cowen, attorney for the Baltimore and Ohio at Baltimore; Mrs. Frank Ames, Mrs. Minor T. Ames, Mrs. A. H. Seely and Miss Elvora Cowan, all of Chicago. His wife also survives him.

Prisoner Fires a Jail.

INDIANAPOLIS, Sept. 22.—A prisoner in the Haughville jail set fire to it yesterday morning, and gave as a reason for so doing that the musquitos were so bad that the prisoners could not hear each other talk. The fire created intense excitement among the inmates of the jail, but it was extinguished without much trouble.

FORT WORTH, Tex., Sept. 22.—Fire at 2 o'clock yesterday morning destroyed the Ellis hotel and Garlington & Montgomery's wholesale produce store. The Ellis was the largest hotel in the city and was crowded with guests. There were many narrow escapes. The loss cannot yet be estimated.

THE ODD FELLOWS

From All Over the World Meet in St. Louis

IN SOVEREIGN GRAND LODGE.

The Opening Session followed by a Grand Street Parade—Over Fifty Thousand Odd Fellows in the City, Which is Gaily Decorated in Honor of the Occasion.

ST. LOUIS, Sept. 22.—The biennial meeting of the sovereign grand lodge of the Independent Order of Odd Fellows of the United States opened here yesterday, and the town seems to be overcrowded with members of the order. The sovereign grand lodge consists of four delegates from each state and territory in the United States and in addition representatives from most of the foreign lodges, with the exception of Great Britain. The liberal rates granted by the railroads have been largely instrumental in bringing about a large attendance, and the present conclave bids fair to be the largest in the history of the order.

Tributary to the conclave of the sovereign grand lodge at the Masonic temple, degrees were conferred on about 300 Odd Fellows by Deputy Grand Master W. F. Maring.

Grand Sire Campbell declared their seventy second annual gathering opened, and Grand Chaplain J. W. Venable, of New York, invoked divine blessings. There was a wild cyclone of applause as Dr. Campbell arose to make his annual report. The hall was a sea of waving regalias. Dr. Campbell's report referred to the sad accident that had befallen the grand sire of the order, Charles M. Busby, of Kentucky.

The past year the grand sire said had been one of grace and blessings to Odd Fellowship. The number of Odd Fellows initiated last year, the report reads, was 68,000. The net increase in the United States and Canada, during the past twelve months is 37,000. Total membership, 672,339. Revenue for 1890-91, is \$7,244,237. The pecuniary benevolence distributed was \$4,000,000. New grand lodges have been formed in Indian territory, Cuba and Japan. He referred to the growing popularity of the degree of the Rebekah, which now numbers 132,000 ladies.

In the afternoon there was a grand parade of the order and the uniformed rank, together with several regiments of the state militia. Although the various commanderies were not as strongly represented as was expected, the procession was fully two miles long. The streets were jammed, and the masses warmly cheered the marching cantons throughout the whole line of march. The buildings along the principal thoroughfares were gaily decorated with flags and bunting and presented to the eye a beautiful sight.

Last night the members of the grand lodge were welcomed in the exposition building on behalf the state by Governor Francis. Elaborate arrangements have been made for the entertainment of the delegates, and their visit to this city will be a memorable one. It is estimated that over 50,000 Odd Fellows and their families are in the city besides many other thousands who have come simply as spectators.

TO BREAK THE RECORD.

Fast Horses to Compete Against Time at Richmond, Indiana.

RICHMOND, Ind., Sept. 22.—The coming meeting at the Richmond fair and driving park, from Sept. 29 to Oct. 2 inclusive, will unquestionably be one of the grandest events in this line ever occurring, not only in this state, but in the country. The performances on the new mile track there last fall when the track was barely completed showed conclusively that it was to be one of the fastest yet built; and competent horsemen say that it is fully as fast as the famous kite-shape track at Independence, Ia.

The society has made a grand effort this fall to make this meeting a record breaker, and have succeeded so well that all that will be necessary to make it so will be good weather. There is scarcely a good horse in the country that is not entered there. Among those who will go to break their records are Monbars, who made the world's record of 2:20 as a two-year-old; Nancy Hanks, Direct, Nelson, Hal Pointer, Homestake, Margaret S. Justina, Globe and Belle Hamlin.

A Case of Mistaken Identity.

INDIANAPOLIS, Sept. 22.—A couple of years ago an old farmer living in the northern part of the county shot a tramp who had built a fire close to his stable. The dead man was unidentified for several days, until a woman announced that he was her husband, Andrew Rabb, whom she had not seen for some time. A number of persons positively identified him as the dead Rabb. But Rabb was not dead and said so in a letter to an Indianapolis paper. Saturday night Patrolman Kelly found two men in a box car and arrested them as vagrants. Yesterday morning both of them were fined. One of them was Andrew Rabb.

Killing Canines.

COLUMBUS, Ind., Sept. 22.—In Columbus, Harrison and Ohio townships, this county, dogs made an unsuspected raid upon sheep pastures Sunday night and one hundred head of fine ones are said to have perished, and Monday the enraged farmers engaged in killing dogs. For a year or more there has not been a sheep killed in this county, and large flocks of fine sheep have had the freedom of the rough lands unmolested. Sheepgrowers say that it is the recent hot wave that has so disturbed the dogs as to put them on the warpath.

As It Should Be.

WILKESBARRE, Pa., Sept. 22.—Edward McMillan, convicted of murdering his wife in a horrible manner at Stummersville has been sentenced to be hanged.

TASCOTT A SQUAW MAN.

Willing to Give Himself Up If They Won't Hang Him.

CHICAGO, Sept. 22.—The fact has just developed here that Frank Tascott, a brother of William Tascott, the alleged murderer of Millionaire Amos J. Snell, held extended negotiations with the police authorities some six months ago, looking to the surrender of his brother. The terms in which the surrender was to be made were that an indictment for burglary against the noted fugitive was to be nolle prosequed and that he was to be paid the reward of \$50,000 offered by the relatives of the dead man for his capture, to be used in his defense against the charge of murder. The negotiations have finally fallen through, Frank Tascott becoming suspicious that the police department would not give his brother fair treatment. These facts are admitted by Police Inspector Marsh, who was at that time chief of police. Mr. Marsh never knew where Tascott was hiding.

Detective Duffy, who was concerned in the negotiations, said that in his opinion the evidence against Tascott is not sufficient to convict him.

The reportorial queries which brought out the above statements were started by a dispatch from St. Paul. The dispatch said that the now notorious fugitive, two days after Snell's murder, arrived at St. Paul where he remained a week. Thence he went to Winnipeg, thence to a farm fifty miles from that point and eventually to the Turtle Mountain reservation, where he joined the Indians and is now a member of the Turtle Mountain band, having adopted the Indian costume and customs and married a squaw.

W. W. Erwin, a St. Paul lawyer, tells the following story in connection with the case:

"One day last February or March a man came into my office and introduced himself as Samuel G. Golden, of St. Johns, Rolette county, N. D. He startled me by declaring he knew where Tascott was and had seen him a dozen times recently. Tascott, he said, had declared to him that he would give himself up if he could have the written assurance of the state's attorney of Cook county, Ill., that he would move on his arraignment that the sentence would be imprisonment for life instead of hanging. Mr. Golden said he had a letter in his pocket from a near relative of Tascott in which the proffer of surrender was made. Golden said Tascott was with the Turtle Mountain Indians."

NOW LOOKING FOR HIS WIFE.

Sherman Cummin Returns to New York from Halifax.

BOSTON, Sept. 22.—Sherman Cummin arrived here yesterday from Halifax. He is the printer who was reported to have been killed in the Park place disaster in New York recently, and shortly afterward was heard from in Halifax. Cummin denies the story that just previous to the disaster he got drunk in New York and woke up in Halifax. He says he left New York with a party of twenty, four days before the calamity in Park place. They took passage for Canada on the steamer City of Columbia. He is a native of St. John, and after conducting his friends about the city, the latter started on their return trip, and he sent word by them to his wife and employers that he would remain there a while.

He went on a fishing excursion and on his arrival at Halifax he heard of the Park place disaster, and of the identification and burial of one of the bodies as his, and the payment to his wife of \$1,000 from the mayor's fund. Cummin telegraphed to New York, but got no reply. Finally he learned that his wife had left New York for parts unknown to him. Cummin thinks she is in this city and he is looking for her, with a view of proving his identity and re-establishing his home.

Crushed in a Coal Mine.

PITTSBURGH, Sept. 22.—A special to The Times from Scranton, Pa., says: A great mass of falling roof caught Joseph Horan, a miner, and his two Hungarian laborers while they were loading cars in the Cuyaga colliery yesterday. They were in the face of the chamber, and were buried beneath the tons of debris which required several hours to remove. When taken out they were dead, their bodies being horribly mangled by the heavy weight of coal and rock that cut and squeezed them.

Considered a Failure.

NASHVILLE, Sept. 22.—The extra session of the Tennessee general assembly adjourned yesterday after a twenty days' sitting. Outside of the passage of the apportionment bill, by which the Democrats gain several additional seats in both houses and the adoption of some local laws, the session has not been fruitful of important results. The convict lease system and the question of arranging for the building of a new penitentiary were left in statu quo, owing to the stubbornness of both houses. The people generally look upon the session as a failure.

Collision of Ball Players.

JEFFERSONVILLE, Ind., Sept. 22.—While Thomas and Harry Reynolds, young men and brothers, of Henryville, were playing in a game of baseball they collided with each other, and so great was the impact that two of Thomas' front teeth penetrated Harry's temple and broke off in the bone. They were removed by a surgeon. Thomas suffered a fracture of the skull, and he is lying in an unconscious condition. Harry is also in a dangerous state. Both may die.

Stove-Moulder Killed.

VINCENNES, Ind., Sept. 22.—Theodore Crawford, a stove-moulder, who resided in this city, was killed Sunday night at Sullivan by falling off a freight train while stealing a ride home from Terre Haute. The deceased was formerly employed in the Enterprise stove works of this city, but lost his job by his participation in the last strike.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

TUESDAY, SEPTEMBER 22, 1891.

The political fight at Lexington is almost as hot as the weather we have had for several days.

The Owensboro Messenger calls for a more rigid enforcement of the laws. The Messenger is right. Better have no laws at all than to have books full and not enforce them.

The Covington Post refers to Chief Justice Holt as "an Independent candidate from the First district." This is news to the Judge's many friends. And he himself will no doubt be greatly surprised to learn that he is no longer classed with the G. O. P.

GOVERNOR CAMPBELL was not very long exposing Major McKinley's inconsistent record on the silver question. The Major has been parading up and down Ohio for some time denouncing seventy-cent dollars when the record shows he voted for that sort of money.

It required nearly a column for one of our exchanges yesterday to correct some misstatements it made last Saturday. The misstatements were the more surprising because the whole talk had reference to the much discussed Con. Con. and its work. There's no excuse for a paper not being posted on this subject.

"COMMERCIAL tourists" will be very particular in their behavior at Gallipolis hereafter. Her Mayor, Monday, fined J. H. Chapman, who travels for a New York wall paper house, \$500 and sent him to jail thirty days at hard labor for dropping obscene notes on the street. Mr. Chapman will never drop any more obscene notes.

"SOMEBODY is doing some egregious lying about American tin-plate," remarks the Cincinnati Post. "The mass of people rely upon their newspapers to tell them the truth, even in a political campaign. Will some one, whose veracity and knowledge can not be questioned, please state where tin is now mined in the United States, and where it is being made into tin-plate, with the name and address of the President of the mining company and the name and address of the Secretary of the tin-plate factory? Please quote lowest net prices on plate, and on tomato cans and pie pans."

THE WEATHER AND CROPS.

Kentucky Tobacco and Corn Greatly Improved and Enormous Yields Expected.

The Signal Service Bureau's report for the week in Kentucky says: "The weather the past week was abnormally warm, with little or no rain, and a large excess of sunshine. These conditions were precisely those required for the maturing of corn and tobacco. The former crop is about made, and except in a few places is safe from frost. All indications point to an enormous yield."

"Tobacco was greatly improved during the week, and the early planted crop is being rapidly cut and housed. The harvest shows it to be better than was anticipated some time since. The later crop, without damage from frost, will, in all probability, be very fine. A severe hail storm in Christian and Todd counties on Friday ruined many fine fields about Hopkinsville and Trenton. Rain is needed for fall pastures, but with this exception the weather could not have been more favorable for all crops. Fall plowing is about completed."

A Minister's Opinion.

Mr. Jacob Connor, a German Baptist minister at Royer's Ford, Montgomery County, Pa., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, colic and cramp in the stomach. I have never used any medicine with better or more satisfactory results. I consider it one of the best ever used in our family. For sale by Power & Reynolds."

Turf Topics.

Ritchfield & Leathers say they have refused an offer of \$100,000 for the two-year-old trotting horse Monbars, 2:20, for which they paid \$7,500 last year.

At Lexington Saturday Ralph Wilkes broke the two-year-old record of Axtell (2:23) by trotting a mile in 2:21. He went a mile on the Maysville track in August in 2:26. This promising young trotter is owned by Dr. W. F. Galbreath, a dentist of Lexington.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

EARTHQUAKES.

Foster's Theory—He Claims They are Caused by Electricity.

The awful earthquake in San Salvador, Central America, September 19th, seems to call for a discussion of the theory of earthquakes. Following the dictates of the nebular theory of creation, our schools teach that the earth is in a molten condition, with only a comparatively thin crust of solid earth on the outside. Physical geographies illustrate this idea by gorgeous cuts, showing a connection between the hot interior of the earth and the burning volcanoes. These are terrible errors to be instilled into the minds of our youth, by which they are given a false basis for the physical forces, geology, meteorology and many other sciences. In opposition to this theory I hold that electricity is the force that causes earthquakes, and in support of this theory I offer the facts that earthquakes occur during periods of great storm disturbances, and like tornadoes, occur when the low barometer of the storm is near—usually between the high and low barometers. It is a well known electric law that when a conductor is overcharged with electricity the latter will find its way out through the atmosphere, making a crackling noise and often emitting sparks. The earth being a magnet and a conductor of electricity is subject to the effects of the latter in various ways. An overcharge of electricity would cause the latter to pass from the earth outward through the atmosphere, thereby causing a rising vortex, as seen in the hurricane, the tornado and in a less force in the ordinary storm.

That there are currents of electricity passing around the earth, in its surface, is a fact not disputed, and these currents follow those stratas of the earth that are the best conductors. These earth strata conductors, when the earth is over-charged with electricity, are overtaxed, not of sufficient capacity to conduct the electrical currents. In such events the result is the same as when electric wires or other electric apparatus in use by man are overcharged. The electricity must find relief, either by dissipating through the atmosphere or by the fusion or expansion of the conductors. If the conductor is made up of small particles these will diverge; if it is a solid body it will expand or fuse, and if it is water it will evaporate.

The strongest currents in this part of the earth, pass not far from Charleston, South Carolina, south-westward in the direction of the volcanic regions in Mexico and Central America, and when the earth conductors, along which these currents flow, are over-charged they find relief in tornadoes, hurricanes, earthquakes or an increased activity in the volcanoes. On September 1, 1886, the planets were in position to over-charge the earth with electricity, and the result is seen in the great earthquake at Charleston, South Carolina, and, as I have repeatedly announced, the planets are now in position to over-charge the earth, and therefore such events as we read of in Central America and the Martinique hurricane may be expected frequently till after June, 1892. It is a noticeable fact that when the earth's electric tension is relieved by an earthquake, the storms are not so great, and when no earthquake occurs to relieve the over-charged earth, the storms are much greater. W. T. FOSTER.

ANOTHER SWINDLE.

The Little Game a Trickster Has Been Working in Central Kentucky.

A well-dressed, smooth-tongued stranger, giving his name as Charles H. Benton, and claiming to be the representative of a large wholesale grocery located in St. Louis, has been working a slick game upon some of the country grocers in Central Kentucky.

He claimed to be an ardent Farmers' Alliance sympathizer, and desired to start co-operative stores for the benefit of the farmer. He would go to a small store and make arrangements with the proprietor to handle his line of goods upon commission, representing the prices to be ridiculously low. After completing all arrangements he would ask the merchant to advance him a small amount of money, and would give him a receipt for the remittance for the first bill of goods shipped. Several merchants in Anderson, Mercer and adjoining counties have been heard from with complaints of being swindled by Mr. Benton, and it is thought that the number who have sense enough to keep their mouths shut and not let their friends hear of their stupidity is large.

Attention, Sir Knights.

The Sir Knights of Maysville Commandery No. 10 who propose to take part in the grand parade at Cincinnati to-morrow afternoon, will meet at C. and O. depot in fatigue uniform and take six o'clock fast train. Will be accompanied by Maysville band.

REV. THOMAS HANFORD, D. D.

Resolutions of Regret at His Approaching Departure Adopted by the Ministers' Union.

Next Sunday will close Dr. Hanford's work at the Third street M. E. Church. He has been the faithful and zealous pastor of the denomination the full number of years allowed by the rules of his church, and the coming conference will assign him to some other charge. The Ministers' Union took appropriate action yesterday, and adopted the following:

WHEREAS, We have learned that our brother, Rev. Thomas Hanford, D. D., is about to sever his connection with his church in this city, and to remove to another charge, therefore,

Resolved, That we regret that this change will necessitate his removal from the association of ministers in this city.

Resolved, That it gives us pleasure to record our appreciation of him, and the pleasure and profit we have received in associating with him.

Resolved, That we shall follow him with our prayers to his future home, and hope that his work may be abundantly blessed to the Master's use, and that he may be wise to win many souls for His kingdom.

Resolved, That request be made for publication of these resolutions in the city papers.

NUPTIALS AT NINE.

The Baptist Church the Scene of a Happy Matrimonial Event.

Marriage of Mr. Ernie White and Miss Margaret Pollitt This Morning.

The First Baptist Church was the scene of a happy event this morning at 9 o'clock. At that hour the marriage of Mr. Ernie White and Miss Margaret Pollitt took place.

The church was crowded with relatives and friends of the contracting parties, who assembled to witness the ceremony that united the young couple. The pulpit exhibited a very pretty arrangement of tropical plants, while suspended in front of these were seen the letters "P." and "W." artistically arranged in white flowers, entwined in hearts of evergreen. The bright September sun had been shut out, and the softly burning gas jets shed a mellow light over the scene. Miss Bramel presided at the organ, while the ushers were Dr. Pollitt, of Cincinnati, (a brother of the bride), Mr. Sam'l Holmes, of Mt. Olivet, Mr. Perrine Jenkins and Mr. Lee Hauke, of this city.

Mr. Holmes and Mr. Jenkins preceded the bridal couple, who were followed by Messrs. Hauke and Pollitt. In front of the altar the contracting parties were met by the officiating ministers, and the words were soon spoken that made the twain one. The ceremony was performed by Rev. J. E. Wright, of the M. E. Church, South, assisted by Rev. W. J. E. Cox, pastor of the Baptist Church.

The couple left shortly afterwards on the westbound C. and O. train, on an extended bridal trip. They will visit several points in Indiana and Illinois, and from there will probably go East by way of Niagara Falls.

The groom is the only son of Mr. Charles H. White, and is one of Maysville's promising young business men, being a member of the firm of White, Daulton & Roden, tobacco manufacturers. His bride is a daughter of Mr. and Mrs. R. H. Pollitt, of Limestone street.

The bright morning sun that greeted the happy young couple as they left the church was typical of the bright prospects which mark the beginning of their new life. The BULLETIN unites with their many friends in congratulations and well wishes for the future.

Railway News.

Beattyville has voted \$15,000 to aid in completing the R., N., I. and B. road to that place.

There is some talk of extending the little narrow-gauge railroad from Johnson Junction to this city by way of Mayslick.

Says the Ashland Signal: "The past few days trains No. 1 and 2 on the C. and O., have carried no smokers, and considerable confusion was caused on the arrival of these trains on that account. A number of the leading roads have taken steps to prohibit smoking on their trains, and, of course, had to abolish their smoking cars to accomplish this result. The Missouri Pacific was the first to inaugurate this movement, and a number of other roads have since followed suit, the C. and O. being the latest acquisition. The move was made so quietly that there was no chance for a protest from the smoking class, but there will be a healthy kick when the fact becomes generally known. Just what is to be gained by the move the roads do not state, and the public is in the dark in regard to the matter. First-class passengers traveling in a sleeping car can enjoy a smoke in the smoking car, but it now looks as if that luxury will soon be a thing of the past."

THE Cincinnati Enquirer says: "Fannie M. Tabb wants a divorce from Langhorn M. Tabb. They were married in 1881. The charge is failure to provide. She says he earns from \$75 to \$125 a month as an employe of Chas. Bodmann. The latter was enjoined from paying Tabb his salary."

THE London Tib-Bits offered a prize for the best definition of "money." The prize was awarded to Henry E. Bangs, of Hefield. His definition was: "An article which may be used as a universal passport to everywhere except heaven, and as a universal provider of everything except happiness."

THE Barbourville News says: "There are some peculiar coincidences in the family history of Uncle Threlkeld, of the Bohon neighborhood. He will be eighty-one years old on the 6th of next November; his mother was born on the 6th of November and died on the 6th of November, and he had three sisters, all of whom were born on the 6th of November."

MR. B. L. GUNNER, a very prominent young man of this county, suddenly became a raving maniac. His mental troubles were caused by the opposition of his father to the purchasing of a fine breech-loading gun. His father yielded and sent him to Frank Owens Hardware Company to select one of their fine breech-loading double guns with complete outfit. We are happy to state that Mr. Gunner is now a sane man, having fully recovered.

THE Jackson Hustler says: "Judge Patrick has decided a case which is of great importance to the people of Breathitt County and Eastern Kentucky. It involves the question of mineral right bonds. T. T. Black asked to be released from the bond he had given to Halsey & Co. for the mineral in several hundred acres of land on Quicksand, and that damages be granted him for having been so long kept out of the title by this bond. The court released him from the bond and gave him damages in the sum of \$500."

The Straw Bed Fishing Club.

Says the Courier-Journal: "Colonel Frank S. Owens, Chief of Staff of the Straw Bed Fishing Club, of Maysville, called on Secretary Forsman, of the Kentucky Fish and Game Club, last week to make permanent arrangements by which his club will become members of the Fish and Game Club. He says there are about fifty-five members of the Straw Bed, and that they desire to unite with the Kentucky club, in order to assist in having good laws passed for the protection of fish and game. Mr. Owens is one of the best known fishermen of the State, and has been the leader of a great many expeditions in this State and throughout the Northern lakes. The addition of this organization to the ranks of the club, now numbering nearly seven hundred members, being the strongest club of its kind in existence, is a valuable one. All the gentlemen who desire to join the club are men of standing, and their influence will largely help the club to accomplish the objects it has before it."

LAND REVOLUTION.

Some Very Radical Views on the Situation in England.

SIR JOHN GORST INTERVIEWED.

He Says That the British Parliament Must Do Something in the Way of Radical Land Legislation—Other Foreign News.

LONDON, Sept. 22.—Sir John E. Gorst, political secretary of the Indian office, who, according to popular reports, was to have succeeded the late Postmaster General Raikes, in an interview upon the English land question declined to commit himself to any definite plan for the settlement of this grievance. He said, however:

"Something must be done and will be done or a revolution is certain. I don't mean a bloody revolution, but I mean that people will demand possession of the land they live upon. They have not the power to do so, and they are dissatisfied with their present lot. Consequently they will have things altered. Allotments may palliate, but they will not solve the difficulty. The Conservatives ought to attempt the solution of anything that would stop emigration and keep the people from flocking into the towns. Give them an interest in the soil; that is true conservatism. I am now inquiring into the condition of the rural laborers and the smaller class of farmers. I am a learner, and am gleaming by personal contact facts which will justify me to form a definite policy upon the English land question."

Considerable attention has been attracted towards Sir John Gorst, who is a member of the royal labor commission since June last, when in a remarkable outburst of plain speaking in the house of commons, he expressed contempt for certain members of the ministry. His present utterance would seem to indicate that the appointment of Sir James Ferguson as postmaster-general has caused him to break out in a new direction.

The Star predicts that he will be the leading "Tory democrat" and intimates that he is preparing to bid high for the rural vote.

DEPLORABLE.

A Tornado and an Epidemic Add to Spain's Desolation.

MADRID, Sept. 22.—A hurricane Sunday evening added to the damage done by the recent floods to the unfortunate town of Consuegra. Many of the houses, previously undermined or otherwise weakened by the floods, collapsed Sunday night beneath the force of the wind.

A further feeling of gloom has been caused throughout Spain by the announcement that a severe epidemic of influenza has broken out at Badajoz, capital of the province of that name. There are already over 2,000 severe cases of that disease in the city mentioned, and it is feared that the epidemic will spread over Spain.

Riot at a Bull Fight.

PARIS, Sept. 22.—A Marseilles dispatch says a serious riot occurred in that city Sunday. The spectators at a bull fight, becoming displeased with the manner the performance was conducted, broke into the arena, chased the men and bulls out of it, tore down the seats, piled them in heaps, and threatened to tear down the building, after having set fire to the pile of furniture. A strong force of gendarmes arrived at this point. They were compelled to repeatedly charge the rioters before they were enabled to clear the circus building of the crowd and make way for the firemen to quench the flames which had gotten under considerable headway. Finally, however, the fire was extinguished. Many arrests were made. The proprietors of the circus declare they will prosecute the rioters.

Teaching Children Temperance.

LONDON, Sept. 22.—In a pastoral letter read in all the Catholic churches of this city Sunday, Cardinal Manning points out the necessity of rearing children in the principles and practice of total abstinence from the use of intoxicants. The letter concludes with an earnest appeal to parents to so train their children that they may live lives of sobriety.

The Sultan Growing Nervous.

LONDON, Sept. 22.—A Constantinople dispatch says that the sultan is losing the self-control for which he has been noted, and is becoming very nervous and suspicious of everybody, and some of the leading Turks suspect him of a design to place himself and his treasures under the guardianship of Russia should another war break out.

Christians Murdered.

CONSTANTINOPLE, Sept. 22.—The Yemen insurgents have captured Sana, the capital of the province. The grand vizier will probably send the troops now stationed in Hedjaz, where the cholera is raging in Yemen. It is rumored that many Christians in Armenia have been murdered by the Kurds.

LONDON, Sept. 22.—From Waldenburg, Silesia, comes news of a serious accident. Owing to an explosion of fire damp seven miners were killed and many seriously injured.

HIGHWAYMEN'S WORK.

Hotel Clerk Robbed of Cash and Valuables While on Duty.

St. JOSEPH, Mo., Sept. 22.—At 2:30 o'clock this morning three strange men, who wore silk handkerchiefs over their faces, walked into the office of the Pacific House, the leading hotel of St. Joseph and situated in the very heart of the city, and deliberately robbed the clerk of over \$800 in cash and valuables. The men drew large revolvers and ordered the clerk to throw up his hands.

A number of guests who were in the office were marched to chairs where they were guarded by one of the men with a revolver in each hand. The clerk was made to unlock the safe and two boxes containing cash and valuables were taken. Then the three men coolly walked out and disappeared. There is no clue to the robbers, but it is thought to be the work of an organized gang.

Elwood Tolle and family were the guests of his father, R. P. Tolle, last week.

Miss Lizzie Bramel, of Mt. Gilead, was the guest of Mrs. Allie Coryell Monday.

Misses Anna Glascock and Minnie Gordon, of Mt. Carmel, visited Miss Laura Mayhugh last week.

Rev. J. R. Peoples has returned from conference to resume his pastoral work at the M. E. Church, South.

The Maysville and Mt. Carmel stage has changed hands, and is now owned by Higgins & Co., of Gilead.

The meeting at the Christian Church, conducted by Elders Spicer and Zeigler, closed with thirty-five additions. Only the Christian religion puts morality on its proper basis, the fear and love of God. The humblest occupation has in it the materials of discipline for the highest heaven. Afflictions are but the shadows of God's wing by which souls are brought to light.

COTTAGEVILLE.

Louisville Tobacco Market.

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.

Sales on our market for the week just closed amount to 3,395 hhds., with receipts of 1,495 hhds. for the same period. Sales on our market since January 1st amount to 123,751 hhds. Sales of the crop of 1890 on our market to this date amount to \$5,418 hhds.

Our market for burley tobacco this week, except for fine grades of fillers, has been dull, quiet and decidedly weaker, and we find it necessary to lower quotations on low and medium grades. The offerings have been large, composed mainly of common grades with the per cent of rejections usually heavy. September weather conditions have been all that could be wished for, for the crop on the hill, and rapid progress has been made in many localities in getting the crop under cover while in other sections the crop was late in maturing and housing has been limited; but taking the State at large no doubt more than half the crop is off the hill, and each day of good weather is adding rapidly to this per cent.

The following quotations fairly represent our market for new burley tobacco:

Trash (dark) or damaged tobacco	\$2 00@3 00
Colony trash	3 00@6 00
Common lugs, not cut	3 50@4 50
Colony lugs	6 50@10 00
Common leaf	5 00@7 50
Medium to good leaf	7 50@12 00
Good to fine leaf	12 00@22 00
Select wrapery tobacco	22 00@33 00

Weekly Review of Cincinnati Tobacco Market.

The offerings at auction for the week were 2,703 hhds., classed as follows: 745 hhds. Mason County (Ky.); District: 734 hhds. Pendleton County (Ky.); District: 304 hhds. Owen County (Ky.); District: 255 hhds. Blue Grass (Ky.); District: 760 hhds. Brown County (O.); District, and 5 hhds. Indiana, against 3,111 hhds. the previous week and 2,560 hhds. corresponding week last year. Total offerings for year to date 88,376 hhds., against 86,053 hhds. same time last year.

Hhds. Receipts for the week.....2,493

Receipts same week last year.....2,623

The breaks, while not as large as last week, were still heavy, as also the receipts, and there was shown an increase in stock of 1,012 hhds. The market was not a generally satisfactory one to shippers and rejections were large. Common and low grades of trash and lugs were offered in large numbers, 1,360 hhds. selling below 6c., half the offerings. This large supply had its effect, and an easy market was shown, and at the close prices were lower than noted heretofore. Mediums, common leaf and red tobacco do not find much favor with buyers, and prices rule low. Good to fine leaf and all grades showing color are in active demand and sell at full prices; the supply of this kind is small.
